The next-generation all-in-one retail solution from HP. Sleek, stylish, and able to effortlessly integrate into your current environment, the HP RP7 Retail System can be customized for everything you need and nothing you don’t.

Impressive everywhere you look
Enhance your store image with the modern, space-saving HP RP7, which has all the capabilities of a traditional retail solution and a sleek design that effortlessly fits into retail environments. Use it on a counter or mounted on a wall; the unique dual-hinge base supports adjustable tilt and height for maximum comfort.

Sleek, flush-bezel edges also make the HP RP7 an appealing self-service kiosk that will attract customers and that your employees can’t wait to use. Connection points on all four sides of the display lets you customized the exact combination of stylish HP retail peripherals (magnetic stripe reader, compact receipt printer, barcode scanner, POS keyboard with programmable keys and cash drawer) you need to complete your solution.

Substance beyond style
The HP RP7 is retail-hardened for use in ambient environments up to 40°C. The steel chassis, onboard monitoring and alerts, and environmental and shock testing stand up to the long term wear and tear of retail environments.

The extended product lifecycle helps ensure consistency in your install base, and the three-year limited warranty on the entire solution gives you peace of mind about your investment.

Performance you can trust
Quad-core 2nd Generation Intel® Core processors with Intel® vPro™ Technology (select configurations) deliver hardware-based remote management technologies and a stable, secure, and reliable infrastructure. 2.3 DDR3 RAM technology helps ensure fast application loading and toggling between screens.

Select a 15-inch or 17-inch diagonal display, with an intuitive and familiar projected capacitive touch technology. Intrusion protection helps protect against dust and liquid spills.
SPECIFICATIONS

Operating system - Presintalled
Genuine Windows® 7 Professional

Processor - 2nd Generation Intel® Core i3 Processors

Chipset - Intel® Q67 Express

Memory - 4GB DDR3 1333MHz RAM (1 DIMM)

Internal storage - 320 GB SATA 6.0GB/s hard drive (7200 rpm)

Audio visual - Rear-line input (supports microphone or line input), lineout; line-out used if CFD installed; High Definition Audio with Realtek ALC261 codec (all ports are stereo); SRS Premium Sound audio management technology; Multi-streaming capable; Dual Internal Speakers (standard)

Communications - Integrated Intel® 82579LM Gigabit Ethernet Network Connection
